

24 Robe miniPointes for Sound Stylists

Sound Stylist's Decent Vusimuzi "Vusi" and Obakeng Pati "Bucks"

Rental Company Sound Stylists have acquired 24 new Robe miniPointe's from DWR Distribution which will be used at their branches in Durban and Cape Town.

The new fixtures are not only able to produce sharp beams and aerial effects in smaller venues, but have the necessary punch to work hard in large venues too.

"This dynamic beam, wash and effect fixture has a host of features and we can't wait to exceed all expectations when we use them at our next show," commented Estelle Galloway from Sound Stylists. "We were pleasantly surprised by the smooth and even wash, in any of its 13 colours, created by the miniPointe's variable frost filter. The possibilities are endless with the new Mini Pointe and its output is far greater than one would expect from such a tiny light. Weighing only 13 kg, it proves that dynamite truly comes in small packages!"

DWR sales team, Schalk Botha and Nicolet Britz, agree. "The Robe miniPointe is small, compact and creates brilliant air or beam effects," commented Schalk. "It consumes low power yet has a high output lamp that will last 6 000 hours. It is cost effective to run and maintain, it has a unique dual linear prism for stunning moon flower effects."

The striking flower effect is created by a static gobo wheel pattern which can be multiplied by innovative dynamic flower effect (DFE).

These units will be added to the ever growing fleet of Robe fixtures based in Durban and Cape Town.

About the Robe miniPointe

The new miniPointe® is a tiny agile air cutter specifically designed to produce sharp beam and aerial effects especially in venues constrained by size.

Striking bright 2.5° parallel beams with glowing colours and static gobo wheel patterns can be multiplied by innovative dynamic flower effect (DFE™) producing various different shapes of flower beams DFE™ dynamically changing in the air.

Fine tuned short arc of the Osram Sirius HRI 140 W RO lamp and optimized optical system pushes with ease through haze and fog.

Smooth variable frost filter and any one of the 13 rich colours is instantly ready to create a smooth instantly ready to create smooth even wash, extending the feature set of this petite but powerful Beam, Wash and Effect fixture.
