Portable Control System

This is the perfect desk to introduce you to the world of intelligent fixture control. Built for entry level operation and small to medium sized theatres, the Strand Lighting 250ML console gives you a simple interface, great features and an even better price.

It merges the world of conventional dimmer/channel control using traditional Command Line operation with an easy to use interface for attributed fixtures using a color LCD screen that has soft keys and attribute encoders.

Strand Lighting's 250ML console can control 250 channels for dimmers and 30 automated luminaires for Moving Lights and LEDs. Your looks can be stored as either Submasters for easy access or Cues for traditional theatre playback.

With the 250ML console's extensive and editable fixture library, you'll never be without the tools you need to control your lighting rig.

Features

- 250 Intensity Channels
