

A touch of Black Motion

Posted on October 7, 2010

07 October 2010

An intimate and tasteful ambience was created at the P & G Awards, hosted at Monte Casino's Ballroom during September. The event, which saw the global company acknowledge good performers within their group, had the lighting supplied by Black Motion Productions.

A touch of Black Motion

The services of Black Motion were called in by VB Sound. The rig was simple yet effective. To light the stage, a 8m truss was hung for backlight onto which 24 LED Parcans and 2 x Robe ColorSpot 250ATs were positioned. A stretch at the back of the stage worked as a canvas onto which beam work created interesting effects. An additional ColorSpot 250AT was placed in the centre of the room on top of a flightcase for FOH and to project the P & G logo.
