

Sidney Koen

I work in the manufacturing department at DWR where we are responsible for the manufacture of custom items such as lighting bars, stage legs, stairs, Vuepix screen brackets, Vuepix base plates, and the list goes on.

I began working at DWR in February 2013. I am a quiet person, who enjoys being busy whether it is building something out of nothing or taking something apart to see how it works, the more complex the solution the more I find this intriguing.

I experienced an unusual work experience, as I recall a client requested a tripper pole, I found this very unusual, and gave the client what he wanted.

I enjoy playing computer games in my spare time and catch up on movies. I also enjoy the occasional braai with friends and family. I also enjoy exploring new places. I also enjoy swimming.

I would like to attend a welding course and learn all there is to know about welding. I am young and still have a lot to learn and would like to be in a higher position of where I am now.

We asked Sidney if he had any fears – “yes seeing Sherryn’s bad side.
