DWR Distribution was pleased to have Ricky Qiu from Absen back in South Africa and honoured to have Absen's continual support.

During Ricky's stay, he and Schalk Botha from DWR visited both older and newer Absen installations to get feedback from existing clients. They also demoed Absen products to prospective clients who were pleased to see such a strong support structure from Absen.

"People really liked the new Polaris series," commented Schalk Botha. "The design of the frame is user-friendly and hands-on, and we were pleased to receive positive feedback."

Ricky looks forward to being back in South Africa for Mediatech 2019.
