IT'S ALL ABOUT THE **People**

DWR Distribution is excited to announce the upcoming Absen ACE Training, taking place from the 2nd to the 3rd of March at our offices in Johannesburg. This comprehensive training program is designed to provide you with the skills and knowledge necessary to successfully set up and configure LED screens. Plus, you'll have the opportunity to earn the prestigious title of Absen Certified Engineer (ACE) upon successful completion of the course.

Over the course of the two-day program, you'll receive both theoretical and practical learning experiences that will equip you with the tools and techniques needed to handle complex LED screen installations. Dylan Jones will guide you through topics such as LED screen theory, control system configuration, maintenance, and more. You'll also have hands-on experience setting up and configuring LED screens, giving you a comprehensive understanding of the entire process.

By the end of the training, you'll have the knowledge and skills to confidently install and configure LED screens, troubleshoot common issues, and provide ongoing support to your clients.

We highly encourage you to take advantage of this unique opportunity to enhance your skills and further your professional development. Don't miss out on the chance to become an Absen Certified Engineer!

The cost is R500 per person and includes lunch. Seats are limited. If you are unable to attend kindly note that DWR plan to host another ACE program later in the year.

Kindly use the Barcode on the invitation to book your space.

Hope to see you there!
