Striking Silver was the theme for TWP Consulting's

unforgettable 25th Anniversary held on the 3rd November at the Sandton Convention Centre.

The celebration for this mining and mineral projects company included performances by Johnny Clegg, Mango Groove and Dr Victor and the Rasta Rebels, with Sound Stylists providing the sound, lighting and audio visual aspect of the show. Digby Glover, CEO of TWP commented, "Great teamwork, superb attention to detail and total dedication to make it happen, transformed an important event into a memorable milestone. The unending compliments we have received from our guests says it all."

Lighting Designer Travis Yeatman from Sound Stylists worked on the Avolite Pearl Expert, starting the show, presentation and award with theatrical elements and then gradually building it up to the party atmosphere. With 30 Robe moving lights incorporated, Travis particularly enjoyed the rich colours and brightness provided by the units which worked alongside Martin and a variety of parcans and fresnels. 18 x Colorwash 575s and 18 x Colorspot 575s were distributed along the trussing over the stage and dancefloor.

Lighting Equipment list:

6	x	Martin Mac 250 Entour
