(Above): Cosmopolitan Lingerie Show at Upper Eastside Hotel Ultra Event Technical Solutions now have 18 Robin fixtures after six new Robin600E Washes were delivered to their premises in Observatory, Cape Town last week.

“We use our fixtures regularly” commented Costa Champanis, owner of Ultra Events. “They were definitely a great buy. We like the light weight, speed, brightness of the fixtures.”

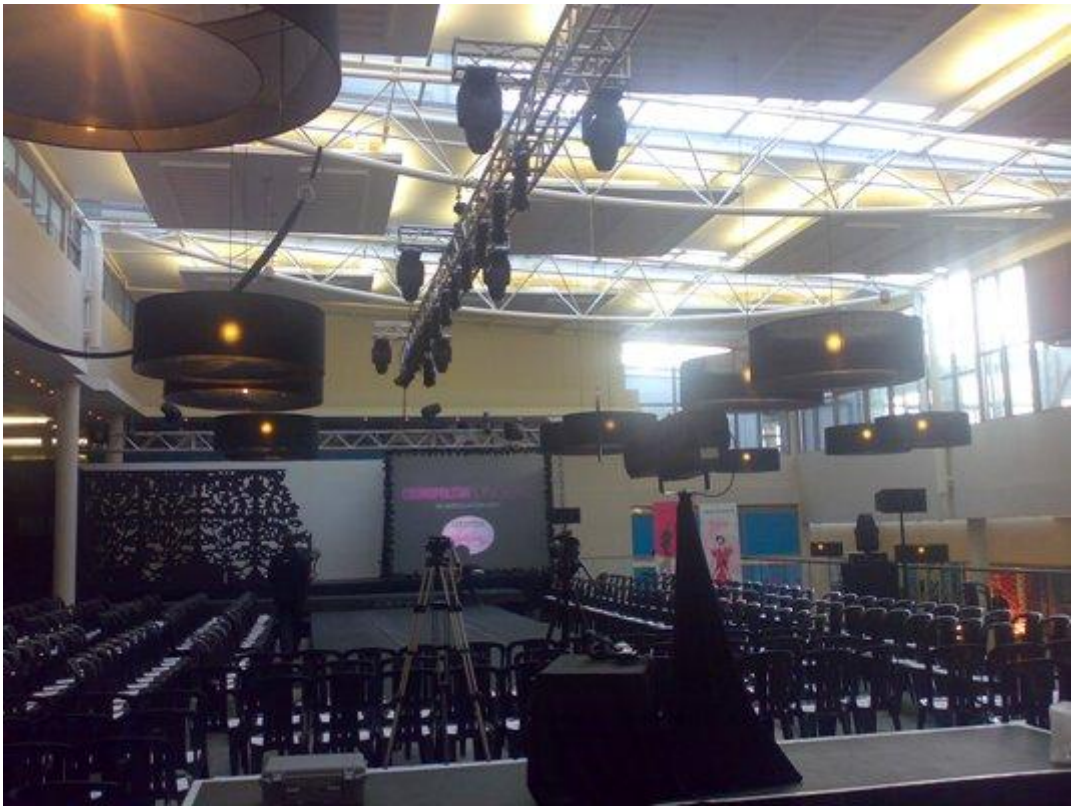
And now… there are 18 units!



The short term stock-plan is to increase stock levels, which currently incorporate 6 x Robin300 Beams, 6 x Robin 600 Spots and 6 x Robin600 washes, to a total of 36 units.

“Our only problem is the total lack of back-up and support from our dodgy supplier”, Costa teases. “And (apparently) that you’ve just got to live with in South African market .”

With friends and family, healthy bantering goes with the territory!
