

## Audix A133 Studio Condenser Microphone

Faithfully capture the detail of your performance without the room noise with the [#Audix](#) A133 studio condenser microphone. Housed in a precision-machined aluminum body, the 33 mm fixed-charge capsule features a gold-sputtered diaphragm for wide, natural frequency response. With its well-behaved cardioid polar pattern, the A133 captures your performance while rejecting unwanted, off-axis sounds.
