

Aurora Series by Absen

Absen is pleased to announce the Aurora Series, a lightweight panel ideal for both indoor and outdoor advertising applications.

With a brightness of 10000 Nits and built to withstand outdoor weather conditions, the Aurora Series offers a five-year warranty, low energy consumption and a powerful cooling system further adding to the life of the product.

> Aurora Series

- 10000 Nits High Brightness and Long-lasting Anti-attenuation Ability
- Ultra-low power consumption featuring a 40% reduction
- 5-year Product Warranty Ensures Stability and Reliability
- Vivid Picture with a Wide Field of View for Advertising
- Fast installation, minimum labor required for front and rear maintenance

> Major Application Scenarios

Midrange and high-end standard DOOH display, Spectacular, Street furniture, Transit Area, and DOOH (Sports)...
