

Avolites to showcase total visual control at PLASA London

Posted on September 25, 2015

UK - Lighting and video control specialist Avolites is going all out for PLASA London this year with a brand new stand designed to echo the coherence of the current Titan and Ai product ranges.

This will feature two specific areas, focusing on Network functionality and Lighting and Video integration. Avolites' stand D10 will promote a compatible family of products which all work intuitively together.

Highlights of on-stand products include the new Arena console with Optical Titan Net Switch, both of which are shipping on the date of the show. In addition, new software in Titan version 9.1, featuring enhanced pixel mapping functionality, fully custom Key Frame Shape engine and fully featured theatre functionality.

“There is much talk about the future of the PLASA London show, but this year Avolites is investing more than ever before,” says Avolites Sales Manager Stephen Baird-Smith. “The UK is a huge market for all the major brands in entertainment, and very important to Avolites. We feel the customers in the UK deserve our best efforts at our home show, so we will be looking our best and the stand will be buzzing!”

The Avolites Arena is the ideal console for festivals, theatres and anywhere that a larger control surface is required. It combines the popular interface of the Tiger Touch II with 30 additional Playback faders and expanded live control options and features.

The Optical TNS is perfect for connecting FOH to stage using Cat5E Ethernet cables for distances under 100m, and an Optical input for fibre connections over distances exceeding 100m. The 1 Gigabyte network switch also features a built-in UPS to ensure the stability and resilience of your show setup.

The on-stand Avo Bar will be open from 5pm Sunday and Monday, and 3pm Tuesday.

Avolites is on stand D10 at PLASA, London ExCel from Sunday 4 - Tuesday 6 October 2015.
