- Practical and Written Exams

WHEN: 11-12 NOV 2025 | 9AM - 5PM
WHERE: DWR DISTRIBUTION, JHB
COST: R500
BOOKINGS ON LINE

You are invited to join Dylan Jones as he presents Image Processing – Barco Certified Operator – Event Master (Level 1A) Training on 11 and 12 November 2025 from 9am to 5pm at DWR Distribution in Johannesburg. Passing the grade is required to earn certification.

This two-day course is the entry level path for certification on the Event Master Screens Management System hardware and GUI for those who would normally perform the setup and operation of a single or multi-format switcher for small to mid-sized live events that may include blended projection screens.

Description

Topics covered include:

- Event Master platform hardware overview
- Digital video terminology and signal bandwidth capacities
- Event Master Toolset for Single and Multi-Screen applications including Blended Projection Screens
- S3-4K basic setup and operation including Presets and User Keys
- Linking to the EX processor for input and/or output expansion/extension
- ImagePRO-4K standard operation
- Connecting to and mapping the EC-30 controller for basic workflows
- Programming exercises
- Practical and Written Exams (passing grades required to earn certification)

Participants **must** provide their own laptop computer with the following minimum specifications:

- Intel Core i5 or greater with at least 8GB of System RAM
- Built-in Display with native resolution 1920×1080 or higher
- Windows 10 (or higher) or Mac w/OS X (High Sierra or greater). 1
- Built-in RJ-45 Ethernet port (USB to RJ-45 Dongle must be supplied by attendee if not built-in). 2
- A full-sized wired or wireless mouse is suggested.
 - A Mac GUI is supported but may not be available in the software version taught during the course

- Understanding of basic computer networking and ability to configure the settings on your computer is a must

Target Audience

Audiovisual technicians, technical directors, pre-sales engineers or anyone who have little to no multiformat video switching experience that are looking to learn to set up and operate an Event Master system for 50-350 person events with one to six discrete display outputs.

Prerequisites

It is highly recommended to complete the following two online learnings

- [Event Master Basics Training](#)
- [Event Master Technical Introduction](#)

Student should have the following:

- Knowledge of single-screen Presentation Switching workflows.
- Basic computer operation and networking experience.

Objective

Students will engage in classroom theory and hands-on activities in order to enhance their understanding of the product line. They will gain the required skills to successfully set up and operate the system for use in basic (breakout room and small general session) event set-ups.

The cost is R500 per person and includes a light lunch and refreshments. *Terms and conditions: While refunds cannot be provided for cancellations, participants may transfer their registration to another individual.*

The training will be held at DWR Distribution, Block C, Unit 1, Kimbult Industrial Park, 9 Zeiss Road, Laserpark, Honeydew.
