Become familiar with the basics of rigging hardware and structural calculations so you can keep you and your clients safe according to SANS 10366.

Date: 15 & 16 March

Time: 9am to 5pm

Cost: R850 per day

Venue: Cape Audio College

IT'S ALL ABOUT THE PEOPLE

DWR Distribution is pleased to present Basic Rigging Training in Cape Town, a two-day workshop presented by Robert Izzett which covers basic rigging hardware and calculations according to SANS 10366. The course, limited to twenty delegates, will be held at the on 15 & 16 March 2021 at the Cape Audio College in Observatory.

With a focus on safety, delegates can look forward to gaining a better understanding of the rigging laws applied in South Africa, and on a practical level, the handling and use of rigging hardware, shackles, steel wire ropes, trussing, endless rounds and chains.

“The main emphasis of the course is for technicians to familiarize themselves with the technicalities of hardware,” said Robert Izzett. “Not every shackle is a shackle and not knowing the difference can have serious consequences. There is also a misconception that there are no laws governing our industry in South Africa. Our goal is to make everyone aware of the correct technique and rules to follow.”

The cost is R1 700.00 and includes a Certificate of Attendance.

Due to the Covid-19 restrictions, the class will be limited to twenty students, and does not include catering. Delegates should wear masks and adhere to the necessary Covid-19 safety protocols. On the days of training, attendees are requested to report to reception, where they will be directed to the venue.

Date: 15 & 16 March 2019

Time: 9am -5pm

Cost: R1700

Address: Cape Audio College, Unit 8B, Waverley Business Park, 48 Dane Street, Observatory, Cape Town
