

Cabling heroes

Posted on September 18, 2014

To the heroes in the DWR Cabling Department, headed by Philimon Maepa, thank you for delivering a product that is truly outstanding.

The quality and quantity of product that is manufactured by this team is truly amazing. They produce everything from data cables to custom FOH and socopex cabling right up to high quality power distribution systems. We know this service is also greatly appreciated by our clients.

To Phili and the cabling guys, thank you so much for all you do and for maintaining a great attitude day in and day out.
