

Claypaky adds Axcor Profile 600 and 400 to AXCOR LED Series

After the launch of the powerful and successful Axcor Profile 900 LED spot profile, with AXCOR PROFILE 600 and AXCOR PROFILE 400 Claypaky is now presenting two more luminaires featuring the exclusive, award-winning and patented Claypaky **beam framing system**— one of the most appreciated and required device for professional use. **Both these models are available in two versions:** with 6500K color temperature and high light output, or – alternatively – with 5600K color temperature and a CRI of around 90.

In the crowded world of medium-high power lights, the onal light quality, and versatility of use. The luminous efficiency is among the highest in this power category, and – if necessary – it can be further increased by about 25% thanks to “boost mode” making AXCOR PROFILE 600 a perfect tool for tours and large events.

AXCOR PROFILE 600

A wide zoom range from 5° to 45° (1:9 ratio) means the light can be used in a variety of situations, including those for which a narrow angle is best.

The completeness of its color section, its great wealth of visual effects, its framing system implemented with technological devices that enhance its precision and versatility, the possibility of using it as a wash light, make the Axcor Profile 600 an essential benchmark for all modern entertainment uses.

With the **AXCOR PROFILE 400**, Claypaky has revolutionized the medium power market, by offering a light which is able to pack all the most advanced lighting, mechanical and electronic features into an extraordinarily compact body: less than 65 cm high!

AXCOR PROFILE 400

Among the exceptional features this compact LED light offers are a framing system that works on four focal planes, an effects section with an animation wheel, a complete color system with linear CTO, and a high precision mechanical iris. The Axcor Profile 400 is extremely quiet, and has three operating modes, which can be chosen according to needs: Silent, Standard and Auto.
