Claypaky's new lighting solutions – visit their virtual booth!

The graphic features a stylized, glowing blue robot-like figure on the left, composed of geometric shapes. To its right, the text 'CLAYPAKY' is written in large, bold, white capital letters, with 'VIRTUAL' below it in a similar font. A yellow banner below the text displays '12 - 31 JULY 2021'. The Claypaky logo, a yellow circle with a 'C' and the text 'CLAYPAKY AN OSRAM BUSINESS', is in the top right corner. The background is dark with a blue glow emanating from the robot. Below the main text, there's a section titled 'ARE YOU READY TO DISCOVER CLAYPAKY'S NEW LIGHTING SOLUTIONS?' followed by a paragraph inviting visitors to the virtual booth carousel. A list of product features follows, including MINI XTYLOS HPE, XTYLOS AQUA, AROLLA SPOT | PROFILE MP, TAMBORA BATTEN, PANIFY, ADB by Claypaky ACTORIS PARLED, CLOUDIO, and WW (Warm White) versions of MINI-B, MIDI-B, MINI-B PARLED AQUA. A note at the bottom explains how to access the virtual booth. At the very bottom, a yellow button with the text 'www.claypakyvirtual.com' and a hand cursor icon is shown.

CLAYPAKY VIRTUAL

12 - 31 JULY 2021

#CLAYPAKYVIRTUAL

ARE YOU READY TO DISCOVER CLAYPAKY'S NEW LIGHTING SOLUTIONS?

Come along and take a ride on the **Claypaky Virtual Booth** carousel to visit our new exciting fixtures and lighting solutions!

MINI XTYLOS HPE: the Xtylos became smaller with a twist, and more energy efficient than any other fixture so far.

XTYLOS AQUA: the weatherproof version of our celebrated Xtylos.

AROLLA SPOT | PROFILE MP: small form factor spot and profile fixtures, with features to feed your creativity.

TAMBORA BATTEN: a high-power LED batten fixture, with advanced pixel mapping capabilities and unique three-layer selection.

PANIFY: turn static fixtures for dynamic effects.

ADB by Claypaky ACTORIS PARLED: compact, silent and efficient RGBWW ParLED, perfect for use in any theatre or venue.

CLOUDIO: a smart, easy to use, and efficient maintenance tool, now open to other brands.

WW (Warm White) versions of MINI-B, MIDI-B, MINI-B PARLED AQUA, equipped with Warm White RGBWW LEDs (3200 K)...**and much more!**

Note: access to the Claypaky virtual booth 2021 is possible using the same account credentials (email and password) created last year upon registration. Alternatively you can register with a new email or request the password if you forgot it.
