Clear-Com Invites ISE Attendees to Discover New Solutions at their 2025 Showcase

Posted on January 31, 2025

Clear-Com® invites attendees to ISE 2025 to explore the next generation of live event communication at stand #4N900 this February. Clear-Com will be launching a new product alongside featuring multiple solution updates designed to streamline workflows across live events, educational institutions, professional installations, corporate AV, museums, theme parks, construction sites and more!

Clear-Com's newest product is launching in 2025, with exclusive first look live demonstrations at ISE. There will be scheduled demonstrations daily beginning on February 4 at 11 a.m. with Clear-Com President Bob Boster. Attendees can find all live demonstration timing on Clear-Com's event page.

The booth will feature the Arcadia® Central Station, which combines wired and wireless communication workflows into an intercom system. Clear-Com will also present its virtual intercom solutions, including the Gen-IC® virtual intercom service, Agent-IC® mobile app and Station-IC™ virtual desktop clients. These updates enable smooth onboarding, management, and updates via the SkyPort Administration Portal accessible through the users credential management such as Google, Apple, and Microsoft. Both Arcadia Central Station and Gen-IC received "Best in Show" awards at ISE 2024 and return with new updates.

Booth attendees can preview upcoming product updates, including the anticipated EHX v14 software release, which introduces features that simplify complex system setups – making Clear-Com the first manufacturer to have direct SIP telephony clients natively integrated into an

intercom matrix using the E-IPA card, furthering extensive IP capabilities.

The industry turns to ISE for the inspiration and motivation required to drive things forward. Clear-Com’s focus aligns with this vision, not only on reconnecting with colleagues and clients but on restoring connection through transformative technologies, meaningful networking opportunities, and tools that empower career development.

Dave MacKinnon, VP of Product Managment at Clear-Com states that “ISE is a fantastic opportunity for us to engage with our users and show them Clear-Com’s newest products in action. This year, we’re excited to have live demonstrations of a new product, as well as share the powerful new features of EHX v14®, which significantly enhance system configuration and scalability for our Eclipse® HX Digital Matrix systems.”

ISE 2025, a leading global event for audiovisual and systems integration professionals, will take place from February 4 to 7 in Barcelona, Spain. The event will be open from 10 a.m. to 6 p.m. Tuesday through Thursday, and from 10 a.m. to 4 p.m. on Friday. Visit stand #4N900 to see Clear-Com’s beloved products as well as the launch of a new product solution.
