Congratulations Martin Vermeulen & Sven Baden Hansen!

A big congratulations to Martin Vermeulen from Animate-Co and Sven Baden Hansen from 4 Plus

Congratulations Martin Vermeulen & Sven Baden Hansen!

3 Productions on their investment in a new grandMA3 onPC Command Wing XT.

Working together on the upcoming Lord of the Dance tour, Martin will be taking care of the lighting design while Sven oversees production management. Having specified the upgrade for the production, they selected the grandMA3 onPC Command Wing XT for its flexibility, performance, and the reliability that MA Lighting International is known for worldwide.

The console is already heading straight to work and will be used on the legendary Lord of the Dance tour as it travels through Mexico and beyond as part of its 30th Anniversary celebrations.

It's always exciting to see MA Lighting technology supporting world-class productions, and we look forward to following the journey as Martin and Sven take on this impressive run of shows.

Thank you for your continued support and trust in DWR Distribution. We wish the entire team every success on the road and look forward to seeing the grandMA3 onPC Command Wing XT in action.
