

## Core Productions on the move

(Front): Ursula Walter, Bernard Gramann and Riaan “Jozi” Gomes and (Back) Byron Colquhoun, Stan Shilliday, William Fryer and Michael Wessels.

Just over two years ago, Bernard Gramann became the sole owner and founder of Core Productions, a Cape Town rental based company.

In this time, his equipment retinue has grown to include Robin 300 LEDWash fixtures, Robin Mini Pointes, Spikies, the MVS Hazer, base plates, a Beavis and Huey Distro, Prolyte trussing and a list of other gear.

“It’s been quite a ride over the past few years,” Bernard is now able to say with a smile. While he has had his fingers burnt on a few occasions by people he trusted, the challenges have moulded him to make a difference in the establishment he now runs. “In a short time, we have built an amazing company with amazing people in it,” said Bernard. “There isn’t much more to say other than we are an honest, ethical and an exciting team to work with who love what we do and respect those who we do it with, and for! We are thankful for people like Duncan Riley and the team at DWR Distribution who we can deal with and trust. For the team at Core Productions, a thank you from our clients is worth more than gold and it’s what we strive for. To under promise and over deliver sums us up.”
