02 August 2012

Cosmic Gate have been coming to South Africa since 2002 and were welcomed again by a passionate audience when entertaining at Sky Raiders, Johannesburg on 21st April 2012. This was the final leg of their three city Wake Up Your Mind SA tour, accompanied by vocalist Emma Hewitt.

South African rental company, XGX Productions were commissioned by NuWave Entertainment to supply the sound, lighting, AV, structures and special effects to the venue. It looked amazing!

Working on an Avolites Tiger Touch console, the lighting designer and operation was by Gert Smit of XGX. His team also did a great job and a special word of thanks extends to Mpho Kgobe, lighting technician and rigger, Zee Mabasa and Petri Smit, lighting & sound technicians.

The act was complimented with a DJ Line up including Dirty Herz, DJ Fresh, Roger Goode, First State and James Damian.

Partygoers were not only "tranced" by the sound waves, but also by a spectacular lighting show. Well done XGX!
