

## DWR Distribution, a full technical solution

Full technical solutions for the architectural, commercial, broadcast & entertainment markets

IT'S ALL ABOUT THE **people**

DWR Distribution offers a full technical solution for the architectural, commercial, broadcast and entertainment markets.

We house a range of products from lighting to audio, AV and truss, and even safety gear, while our theatre design and manufacturing team are able to assist with mechanical equipment, stage curtains, rails and custom steelwork.

In our news section, we always love to share stories of people making use of the gear we sell. At the end of the day, it's all about the people.
