DWR invites you to Mediatech Africa 2019!

DWR Distribution looks forward to meeting friends in the industry at Mediatech Africa, the largest media and entertainment technology trade show in Africa, to be hosted from 17 to 19 July at the Ticketpro Dome in Johannesburg. Visit us at stand C20.

With a list of international guests attending, the exhibition will see some of the world's leading equipment manufacturers, distributed by DWR, hosting stands at this year's exhibition, including Robe, Clay Paky, Absen, Prolyte, Visual Productions and Quest.

"We wanted to make DWR a central hub for people to unwind, meet up with our team and catch up with our international suppliers," said Robert Izzett from DWR. On the DWR stand, visitors will be able to have a drink or enjoy a cup of coffee. Then, a few steps away, they will have the opportunity to see the latest products being demonstrated, as product specialists on the Robe, Absen, Clay Paky, Prolyte Visual Productions and Quest stands will be bringing the latest and greatest in entertainment technology to the show. "Our suppliers have jumped on board with great enthusiasm, and we know their passion will contribute to creating a fantastic vibe at Mediatech Africa," says Robert.

Mediatech Africa plans to host three presentation zones, where discussions and training sessions will be held. "This is a great initiative by Mediatech, and DWR along with our suppliers, are glad to contribute to the conversation," Robe ended.
