

# DWR presents AV solutions at an Open Day

Posted on April 4, 2022

The DWR team ready for the AV Open Day... those sweets are for our clients !

DWR Distribution was pleased to host an AV Open Day on March 23, held at the company's offices in Johannesburg, where visitors experienced technical solutions for the AV and corporate markets.

Guests were welcomed to the demo room where they could see, touch, and hear a range of equipment on display. People were also given a tour of DWR's in-house training room and boardroom, both venues equipped with user-friendly products from wall touch switches to speakers, LED screens and systems that create a polished solution when hosting meetings or corporate events. The featured brands included tvONE, Magenta, Green Hippo, Visual Productions, Sharp/NEC, Absen, Audix, Magnimage and Quest.

“The purpose of the AV Open Day was to raise awareness regarding DWR Distribution’s offerings when it comes to AV,” said Dylan Jones of DWR who orchestrated the event. “We wanted to attract new and current clients to come to our offices and catch up, while also showing them our products in action across the board from Classic Events to Boardroom Solutions and Training Facilities.”

While DWR has hosted numerous training days over the past two years during the pandemic, an open day fueled the team who were ready to put in every effort to make the day a success. “My personal highlight was during the buildup, working with my colleagues again, a deadline pending,

and making sure the venue was ready for show day," he smiles. "I was really excited about the upgrades our training room received in terms of the Quest ceiling speakers, tvONE HDMI Matrix Switcher and the NEC Display."

DWR Distribution provides premium products ranging from media servers to LED Screens, projectors and everything in between. "We have a world-class team ready to support and train our customers," Dylan concluded. "We pride ourselves on making it all about the people while providing solutions as a turnkey company for your AV needs."
