Training days subject to change | Invites & details to follow

DWR Training in Cape Town!

If you live in Cape Town, please join DWR Distribution for various training days to be hosted in 2022 thanks to the generous hospitality of Cape Audio College.

The courses will kick off with Basic Rigging Training at the end of March, and during the year, delegates can look forward to a variety of workshops including DiGiCo, grandMA3, Vectorworks, Waves and Basic Lighting.

“Thank you very much to Rae De Jager and his team at Cape Audio College, for being enthusiastic and opening their doors to us once again,” said Duncan Riley of DWR. “We are grateful to have a venue to make the training possible and can’t wait to meet up with Cape Audio’s students, as well as the theatre, live events and rental markets based in Cape Town. In light of Covid-19, training new ‘up and coming’ industry professionals is key to the future of our industry.”

The following dates have been scheduled:

29 – 30 March	Basic Rigging presented by Robert Izzett
5 April	DiGiCo Series Basic Training presented by Kyle Robson
6 April	DiGiCo SD Series presented by Kyle Robson
27-28 June	Introduction to grandMA3 presented by Jaques Pretorius
12 July	Waves Training presented by Kyle Robson
26-27 September	Basic Lighting Workshop presented by Michael-Taylor Broderick
4 October	Introduction to Vectorworks presented by Dylan Jones

Kindly note that workshops are subject to change. While the training will be hosted free of charge, bookings will be essential. The courses are self-catering, and delegates are welcome to make use of the in-house canteen.
