Hosted at the Accra International Conference Centre the stage included top artists from Ghana and Nigeria including Shatta Wale, R2Bees, EL, VVIP, Keche, D-Black, 4X4, BisaKdei and Kiss David.

“I was in charge of lighting, as both lighting engineer and designer,” said Ernest. “The Tiger Touch II went down very well.” Every year of the MTN 4Syte Music Awards challenged me to do better than the previous year and this was year was no exception as I achieved my objective. The show came up as flawless as I expected.

“The organisers and artistes were so pleased with the various designs that I explored which accompanied the various stage performances. Avolites Tiger Touch II together with the other lights made a great show and once again history was made as many had smiles on their faces. Satisfaction at its peak.”

The Robin 300 E Beams were reliable, providing eye catching beam effects on stage.
