

EPH at the Starlight Pop Opera in KZN

Posted on October 8, 2015

Under an African sky, the FNB Starlight Pop Opera was held in August at Chris Saunders Park, Umhlanga

in KwaZulu Natal. Beautiful sounds from the KZN Philharmonic Orchestra and soft washes of colour brought the stage dome to life. Chandeliers helped create an extravagant atmosphere as memories were made with Ronan Keating as special guest performer.

Presented by First National Bank and the KZN Philharmonic Orchestra, EPH Productions supplied the full technical for a private show (which had a full dress rehearsal) attended by senior citizens from nearby old age homes, and for a Gala evening for invited FNB guests.

Working on this production for the fourth year, EPH Productions had their ducks in a row to supply the glittering event. Control was on a grandMA and the range of lighting fixtures included 12 Clay Paky Sharpy, 12 Robe Pointes, 12 Robin 100 LEDBeam, 12 Robin 1000, 8 Martin MAC 401, 8 MAC 2000, 24 Par 63, 8 Source Fours, 16 LED Parcans and Avolites Dimmers.

EPH'S Leon Pheiffer was proud of his team and mentioned them by name. "Danie Janse van Rensburg was Production Manager and also ran the show from the Stage Managers Desk, Murray Lubbe was on FOH, Jacques du Toit, Jonathan Velleman , Johannes Mololekoa on stage and Gabriel le Roux on monitors," he says. "We had Johan Ferreira with Andre Westraad on lighting. JP Prinsloo handled the AV for all the screens with the Watchout System."

EPH also supplied the sound and screens.

The artist line up included the KZN Philharmonic Orchestra, Bronwen Forbay, Wouter Kellerman, Ghapi, Gloria Bosman, Tracey-Lee Oliver and of course Ronan Keating.
