

EPH Group elevates events with Absen

Posted on May 3, 2024

The EPH Group have not looked back since purchasing the Absen NT2.9 series from DWR Distribution at the end of last year. According to company owner, Leon Pheon Pheiffer, the panels are high in demand, gracing two to three events weekly, much to the delight of his clients.

Offering technical solutions nationwide, EPH has enjoyed a busy season with their Absen panels. Standout events include the Laugh Africa Comedy Festival at the Sandton Convention Centre and the 39th World Veterinary Association Congress 2024 at the Cape Town International Convention Centre, where EPH was appointed by SAVETCON. Their calendar also featured the FNB Conference, Nedbank Achievers Awards in Johannesburg for Phoenix Ice Events, the Progressive Business Forum's Presidential Dinner, and the Capital SA Summit. Other events worth mentioning include The PassieVol 2024, a music festival at Moreleta Church, The Volvo Awards, and their proud involvement in the Volkswagen Roadshow for STRONG PR, Marketing, and Events.

"Our clients love our new Absen offering," said Leon Pheiffer. "The high resolution and exceptional graphics elevate the experience to the next level. Having both 500 x 500 and 500 x 1000 panels in stock is fantastic, and I must say, 4k is the way to go. The panels also allow for versatility in stage designs and venues. It's awesome to know we have backup service that we can rely on if needed."
