

South African based DWR

Distribution presented grandMA2 Training sessions at their Johannesburg offices from 2 – 11 May 2012.

The training covered all bases from MA2 Basic Training to Advanced User Training for Live Events, Theatre Training, grandma 3D and Networking.

Nick Britz from DWR Distribution, having visited MA Lighting on various occasions and always keeping up-to-date with the latest courses, presented the sessions. “I really enjoy the training,” said Nick. “There was certainly a need, and the more the industry know about the console, the better for everyone.”

The course was split into different categories, and while delegates could decide on which days they wished to participate, many attended all the set days offered.

Many thanks to everyone who attended.
