KioscTouch2 offers a vibrant 8” touch screen with high-resolution visuals and a smooth, responsive interface.

Kiosc Touch features:

– Landscape and portrait mode

– Multiple control pages

– PIN code security

and much more

All designed for easy, flexible, and reliable lighting control.

Design your own dashboard with Kiosc Editor

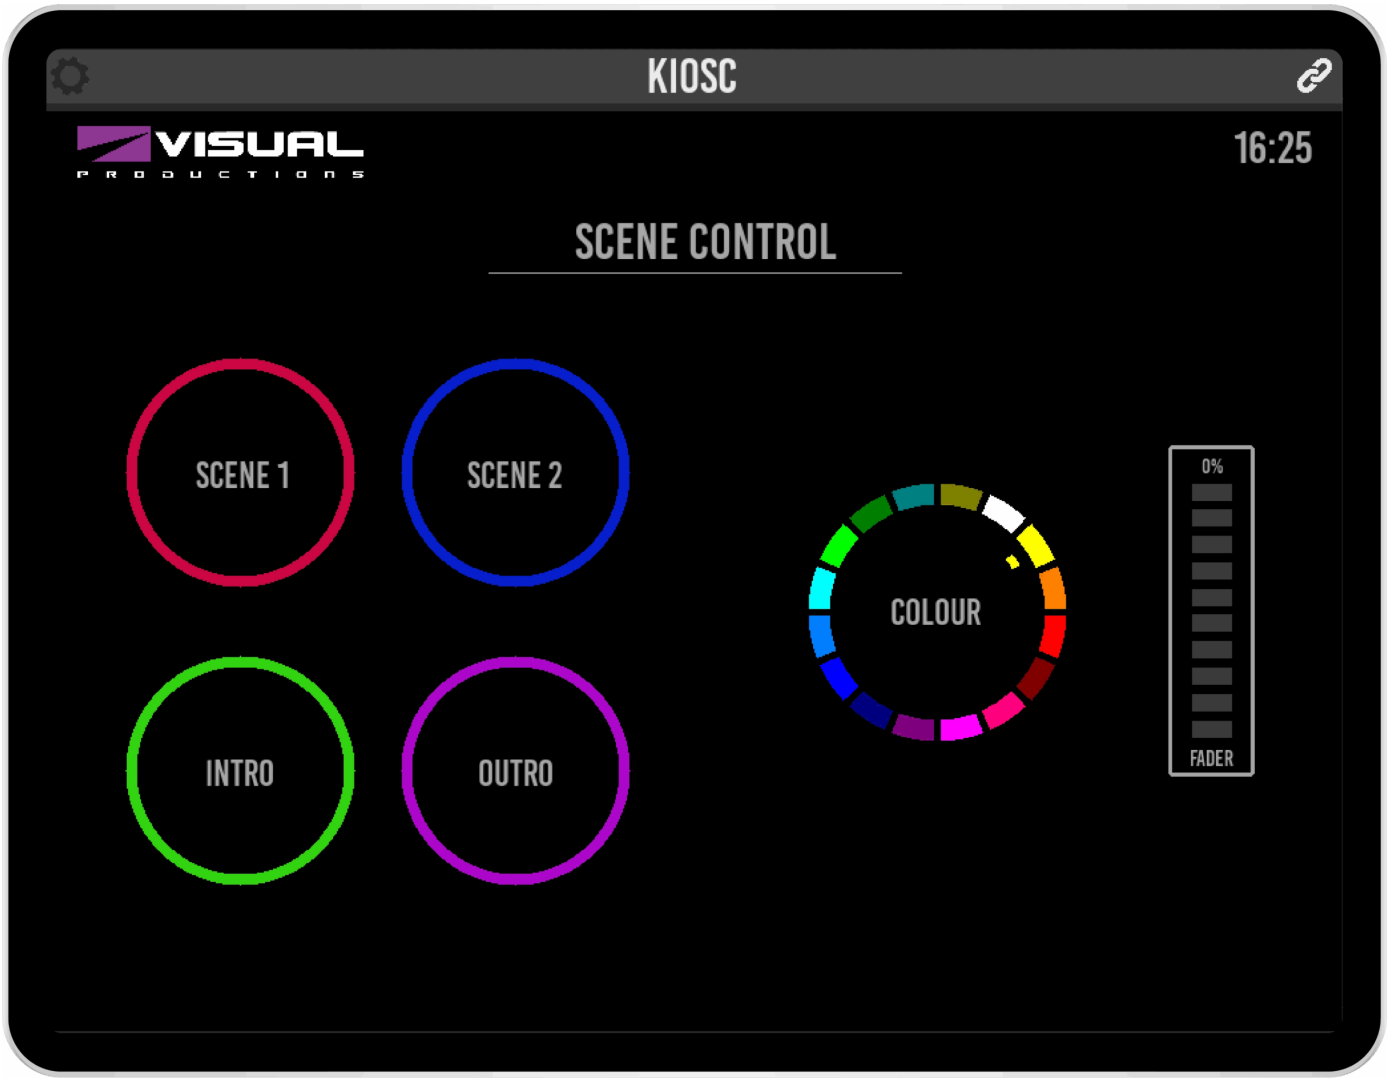

Customise your interface by adding buttons, sliders, color pickers, XY-controls, labels, or images for a user-friendly experience ideal for both technical and non-technical operators.

Just download the Kiosc Editor App and your interface will be ready in no time.

Kiosc App
