

Industry loses Moegammat

Posted on September 2, 2008

02 September 2008

Our sincerest sympathy extends to the family of Moegammat Mohammed as well as to the team at SK Sound and Lighting.

Twenty-six year old Moegammat, a Senior Technician, was travelling from Cape Town to Johannesburg to visit DWR Distribution when involved in a tragic car accident last week. "We are in a stage of mourning and have truly lost a unique and valued person," commented Allan Baker from SK Sound and Lighting. "He was always willing to learn new things; he always wanted to better his knowledge and was the best to work with."

Moegammat was born on the 8th April 1982 and heartbreakingly leaves behind his wife Zeenat who is three months pregnant with twins as well as two very special sons aged one and four respectively.

Moegammat was described as an asset to SK Sound and Lighting and irreplaceable.

Our thoughts are with all his colleagues, family and friends at this very sad time.
