Johannesburg

INTERNATIONAL RIGGING TRAINING

PRESENTED BY RUUD DE DEUGD

25-30 JANUARY | 9AM-5PM | JHB | REGISTER NOW!

International Rigging Training at DWR Distribution, Johannesburg

DWR Distribution announces that renowned rigging specialist Ruud de Deugd will present the International Rigging training course from **25 - 30 January 2027 from 9am to 5pm, at DWR Distribution, Johannesburg**. Kindly note this is a 6-day course.

As the founder of T & E Support, Ruud is celebrated globally for his expertise in rigging and safety standards. With over two decades of experience, he continues to uphold excellence in the event and theatre production industries. A qualified mechanical engineer and former Prolyte professional, Ruud established T & E Support in 2009 — a company that provides comprehensive safety solutions for large-scale events. These include structural calculations, inspections, rigging consultations, and guidance on temporary demountable structures.

T & E Support is also a proud member of the European Committee for Standardization (CEN/TC 152 WG3), where Ruud actively contributes to the development of international standards for event structures.

This 6-day intensive course will cover key topics such as:

- Safety protocols
- Maintenance practices
- Lifting materials
- Force calculations
- Load tables

Participants should have a solid understanding of Mathematics.

Delegates are required to bring:

- 1 x red pen
- 1 x blue pen
- 1 x scientific calculator

The training cost is **R10 500 per person**, including lunch.

Booking Terms:

Please note: Seating is limited. Bookings are only confirmed once full payment has been received. Fees are non-refundable; however, registrations may be transferred to another delegate, **(at the latest, 10 days before the course starts)**.

Booking confirmation: A booking is only confirmed once full payment has been received. Verbal or email confirmation does not secure a spot for the course.

1. **Cancellations and refunds:** Course fees are non-refundable. DWR subsidizes the cost of this course to help make high-quality industry training accessible at the lowest possible price.
2. **Practical assessment:** Attendance on the sixth day, which includes the practical assessment, is compulsory. Failure to attend will result in automatic course failure, as the practical assessment carries a higher weighting than the theory component.

The course will be held at DWR Distribution, Block C, Unit 1, Kimbult Industrial Park, 9 Zeiss Road, Laser Park, Honeydew.

This course is perfect for professionals working at height in the live events industry. We look forward to having you join us!
