

## Introducing CC-70 by Clear-Com: The Premium Lightweight Wrap-Around Headset

This cleverly designed premium lightweight wrap-around dual ear headset is an ideal option for professionals required to wear protective headwear in compliance with increasingly stringent safety regulations, or for people who prefer to have a wrap-around headset. Weighing in at only 2 ounces, the CC-70 is comfortable enough to wear for long periods of time without fatigue. The dynamic audio range allows users to hear a full spectrum of audio without excessive noise and signal distortion that commonly leads to aural fatigue. As an added bonus for talent that appear on camera, the wrap-around structure around the back of the neck won't create the headband crease, or "headset hair".

Discover the new CC-70 premium lightweight wrap-around headset. Combining superior audio clarity and comfort when needing to wear protective headwear or for on-screen talent.
