IT'S ALL ABOUT training THE people

Join DWR Distribution today, 29th January, any time from 9am for the Avolites Media Ai Open Day. Arran Rothwell-Eyre, Service and Support Engineer from Avolites Media has been in South Africa this week and it has been amazing to be shown the capabilities of this product.

"We have been blown away by the Ai Media Server and what it can do," commented Nick Britz from DWR. "It's cutting edge technology and we have a fantastic demonstration -made possible with the help of Kilowatt AV."

We really hope to see you for this hands-on Ai experience – everyone is welcome!
