Training

L-ACOUSTICS

KARA II SYSTEM
APRIL 18

JOIN RICHARD SMITH

Eventech, Plot 50, Lochner Road,
Mrandi, Centurion

Recognize the standard configurations of the benchmark Kara II system and gain hands-on experience rigging and listening to them.

Requirements: Participants must have L-Acoustics System & Workflow or System Fundamentals Certification.

Become a K-System Technician! DWR Distribution invites you to recognize the standard configurations of the benchmark Kx system and gain hands-on experience rigging and listening to them. Join Richard Smith on 18 April from 9 am to 5 pm at Eventech in Centurion.

Interested delegates are required to have L-Acoustics System & Workflow or System

Fundamentals certification. Please also note that the full day training includes a certification test.

Learning Objectives

- Identify the components of a Kara II system
- Know the standard Kara II loudspeaker configurations
- Mount and rig a Kara II system
- Cable a Kara II loudspeaker system

Prerequisites: System & Workflow course certification & Technical English

Duration: 7 hours (8 hours when including lunch)

Participants: 12 maximum

Learning format: Instructor-led session: onsite classroom

Teaching methods: Presentation, demonstration, practical workshop

Languages: Session delivered in English and Material written in technical English

Certification: Attendance to the session. Participation in practical exercises.

Required Equipment

Instructor-led session Computer with a mouse and latest version of Soundvision and LA Network Manager software: L-Acoustics website. Personal protective equipment, including safety footwear. Note pad and pen.

Learning Agenda

Morning - Classroom

System presentation (0.5 hour)

Technological design

Technical specifications

Loudspeaker configurations (1 hour)

Physical deployments

Electronic settings

Acoustic results

Typical applications

Rigging and Driving (2 hours)

Rigging - Setup options and Mechanical safety

Driving - Factory presets and Loudspeaker cabling

Afternoon - Workshop

Rigging practice (2 hours)

Mechanical elements

Procedures

Preparation & Listening (1.5 hour)

Basic setup

Run & Test

Comparison of configurations

Required Equipment

Instructor-led session Computer with a mouse and latest version of Soundvision and LA Network Manager software: [L-Acoustics website](#). Personal protective equipment, including safety footwear. Note pad and pen.

Earned Benefit

Upon completion, the participant is granted with a Certificate and a 1-year account activation/extension on the online L-Acoustics Education platform. In the platform, the membership to the Kara II System group opens access to: – Always up-to-date Kara II System material in the Learning center – Forum gathering all the Kara II System certified learners and instructors

The cost is R250 per person and includes a light lunch.

The course will be held at Eventech, Plot 50, Lochner Road, Mnandi, Centurion (-25.89593280750338, 28.076601355250183).
