

KLANG Immersive in-ear mixing training – JHB

Posted on May 7, 2024

KLANG immersive in-ear mixing is more than a system; it's a personalised experience. Join Kyle Robson for an Immersive in-ear mixing training session on 30 May from 9 am to 4 pm at DWR Distribution in Johannesburg.

The course includes a Klang Product Overview and then Kyle will present a user-friendly introduction to binaural. You will be taken on a journey as he discusses how we hear 3-dimensional with only two ears, what happens in the brain and how this knowledge is utilized for IEM mixes.

Klang believe that a perfect monitor sound is the key to a perfect live performance. As leaders in immersive mixing, the workshop will allow attendees to enjoy a hands-on experience with the tech and knowledge into the future of immersive mixing.

The cost is R250 per person and includes a light lunch and refreshments.

The course will be hosted at DWR Distribution, Block C, Unit 1, Kimbult Industrial Park, 9 Zeiss Street, Laserpark, Honeydew.

Delegates to supply their own PC or Mac with the Klang application (<https://www.klang.com/#klangapp>) and headphones.
