

KLANG IMMERSIVE IN-EAR MIXING

SEPTEMBER 27

9AM - 4PM

JOIN KYLE ROBSON

@ DWR, Block C, Unit 1 Kimbult Industrial Park,
9 Zeiss Road, Laserpark, Honeydew, JHB

A black and silver KLANG:vokal audio interface is shown. It features a large black knob, several smaller knobs with colored caps (red, green, blue, yellow, purple), and a row of buttons. The brand name 'KLANG:vokal' is printed in purple on the front panel.

Posted on August 28, 2023

A black poster with white and purple text. At the top, the word 'Training' is written in a large, white, cursive font. Below it, 'KLANG IMMERSIVE IN-EAR MIXING' is written in a bold, purple, sans-serif font. A horizontal purple line separates this from the date 'SEPTEMBER 27' and time '9AM - 4PM', which are in white, sans-serif font. Below the time, a purple oval contains the text 'JOIN KYLE ROBSON' in white, sans-serif font. Underneath this, in a smaller white font, is the address: '@ DWR, Block C, Unit 1 Kimbult Industrial Park, 9 Zeiss Road, Laserpark, Honeydew, JHB'. To the right of the text is a photograph of a KLANG:vokal audio interface. At the bottom left, a list of bullet points in white font describes the training: 'Klang product overview', 'Introduction to binaural', 'Building an immersive experience', and 'Practical Training'. At the bottom right is the DWR distribution logo.

The KLANG immersive in-ear mixing offers perfect monitor sound, the key ingredient to a perfect live performance. Participate in an immersive in-ear mixing training session with Kyle Robson on September 27th, running from 9 am to 4 pm at DWR Distribution in Johannesburg.

The workshop will allow attendees to enjoy a hands-on experience with the tech and knowledge into the future of immersive mixing. It consists of a comprehensive overview of Klang products, followed by Kyle's presentation on binaural audio. This learning experience will guide you through the exploration of how our brain processes three-dimensional auditory perception using just two ears. Kyle will delve into the neurological processes involved and demonstrate how this understanding is applied to enhance in-ear monitor (IEM) mixes.

The cost is R250 per person and includes a light lunch and refreshments.

KLANG Immersive in-ear mixing Training – JHB

The course will be hosted at the DWR offices, Block C, Unit 1, Kimbult Industrial Park, 9 Zeiss Street, Laserpark, Honeydew.

Delegates to supply their own PC or Mac with the Klang application (<https://www.klang.com/#klangapp>) and headphones.
