GrandVJ XT: https://vj-dj.arkaos.net/grandvj-xt/downl

About ArKaos PRO

ArKaos PRO division has taken the professional video market by storm since its formation in early 2013. This part of ArKaos, which was founded in 1996, ArKaos PRO services the large-scale, professional-level show and lighting projects which dominate ArKaos' client base worldwide. ArKaos PRO software products and media servers deliver blistering performance in speed, effects and manipulation of simultaneous high-definition videostreams.

Leading lighting and stage designers use ArKaos PRO products to create fantastic visual projections on video screens and LED walls at concerts, theatres, churches and clubs. Rental companies love the product range for its tour-tested stability!
More information on ArKaos MediaMaster Pro and other ArKaos media server and video software can be found on our website at www.arkaospro.com where you can also find your nearest ArKaos dealer.
