

A cable to perfectly suit the taste of blues legend Joe Bonamassa: Technically beyond reproach, brilliant in sound and yet natural. The Klotz guitar cable meets Joe Bonamassa's high demands in every respect, it is ideal for the hard daily tour routine and thanks to its very low capacitance of only 70pF/m, also delivers exquisite sound.

This legendary cable is finished off with solid brass connectors with gold tips for a solid vintage look. Also available with silentPLUG connectors.
