IT'S ALL ABOUT THE PEOPLE

DWR Distribution is pleased to announce an L-Acoustics System & Workflow course presented by Richard Smith on 30 September 2021 from 9am to 5pm.

This training will introduce users to the L-Acoustics system approach and project workflow, giving an overview of all L-Acoustics tools and all professional roles involved. It is also a prerequisite for all other L-Acoustics product training courses.

Learning Objectives:

- Understand the L-Acoustics system approach of live sound reproduction
- Know the components of an L-Acoustics system
- Understand the workflow steps of a loudspeaker system project and the associated professional roles
- Know the L-Acoustics tools to use along the project workflow

Upon completion, the participant is granted with a Certificate and a 1-year account activation/extension on the online L-Acoustics Education platform.

Required Equipment:

- Computer with a mouse and latest version of Soundvision and LA Network Manager software: [L-Acoustics website](#)
- Additional mobile device (phone or tablet) with 360 Learning app: [Android store](#) / [Apple store](#)

The cost is R450 and includes a light lunch. Kindly let us know of your dietary requirements.

The workshop will be presented at DWR Distribution, Johannesburg.
