## L-Acoustics to Host 'Masters of Sound Experience' Live Sessions with the Industry's Most Talented Sound Engineers at ISE 2025

Designer Cody Spencer will participate in L-Acoustics 'Masters of Sound Experience' interview and discussion sessions

Earlier in the day, 'How to Create the Best Shared Sound Experience' sessions will offer immersive demonstrations highlighting L-Acoustics solutions across both professional and residential applications. Five guests per session will be invited to learn how to rig an L2D live. Demos will be held at 9 AM, 10:30 AM, 12 PM, 1:30 PM, and 3 PM on the 4<sup>th</sup> and 6<sup>th</sup> while on the 5<sup>th</sup> and 7<sup>th</sup> the schedule will be 9:45 AM, 11:15 AM, 12:45 PM, 2:25 PM and 3:45 PM.

How to Create the Best Shared Sound Experience' sessions in Hall 8.0, demo room B4 will offer immersive demonstrations highlighting L-Acoustics solutions across both professional and residential applications.

L-Acoustics will maintain a significant presence across the show floor, with displays in the Professional Audio hall (Hall 7, booth 7G150), and Residential hall (Hall 2, booth #2F150), where it will present its comprehensive range of professional and architectural audio solutions.

"L-Acoustics continues to push boundaries across all audio sectors," says Jacob Barfoed Global Director of Sales & Sales Operations at L-Acoustics. "At ISE 2025, we invite visitors to experience how our technologies seamlessly bridge the professional and architectural audio worlds, delivering exceptional sound experiences in any environment, from world-class live venues to high-end installations."

## L-Acoustics to Host 'Masters of Sound Experience' Live Sessions with the Industry's Most Talented Sound Engineers at ISE 2025

In Hall 7, L-Acoustics will showcase its acclaimed L Series alongside architectural solutions for the installation market. Visitors can explore the company's latest innovations in sound reinforcement, including in-wall products that bring concert-grade audio performance to integrated installations. The professional audio display will highlight versatile solutions that cater to venues of all sizes, from intimate spaces to large-scale arenas.

Sound Designer Stephen Hughes will participate in L-Acoustics 'Masters of Sound Experience' interview and discussion sessions

Featured products include the recently launched architectural solutions Soka, X4r, SB6r, and SB10r. The ultra-shallow Soka, at just 99 millimeters deep, showcases the company's colinear array technology, while the LA7.16i amplified controller delivers unprecedented power and control with 16 channels of amplification in a 2U rack format.

Bon Iver Sound Engineer Xandy Whitesel will participate in L-Acoustics 'Masters of Sound Experience' interview and discussion sessions

Visitors to the residential audio booth in Hall 2 will be able to take a close look at the latest products from L-Acoustics, including Soka, X4r, SB6r, and SB10r, showcased in recessed formats to demonstrate how these concert-grade loudspeakers can be seamlessly integrated into any private architectural interior, whether on land or at sea.
