RSVP

IT'S ALL ABOUT THE PEOPLE

Lighting Networking Training – Free of Charge

You are invited to attend a Networking and Lighting Protocols Workshop presented by Jannie de Jager on 1 and 2 July from 9am to 5pm at DWR Distribution, Johannesburg.

A reliable and powerful network is important and crucial in today's projects. You can compare a network to a nervous system. It is essential for the performance of the whole system independent of the data, like lighting, video or audio, that is being transmitted.

Jannie will cover topics such as network protocols, show control protocols, planning a network and troubleshooting.

Delegates are to supply their own laptop or PC and an optional network switch. Please also bring a valid ID.

Training will take place at DWR Distribution, C1, Kimbult Industrial Park, 9 Zeiss Road, Laserpark, Honeydew.

While the course is free of charge, please supply your own packed lunch.
