MA's Daniel Kannenberg Will Present at Mediatech 2019

Posted on July 12, 2019

Daniel Kannenberg, from the MA Technical Support team, will be presenting two different talks at Mediatech Africa 2019. "The Future is Now" will cover the future

of integration of the grandMA 3 console and examine the role of General Device Type Format and developments in the My Virtual Rig format. The other topic he will be presenting is "Networked Systems: Keep It Simple" which will examine network lighting control in a show environment.

You are welcome to join Daniel as he gives his presentations during the following sessions:

"The Future is Now" will be at Presentation Zone 3 on the 17th of July from 10:30-11:30

Networked System: Keep It Simple" will be at Presentation Zone 3 on the 17th of July from 16:30-17:30

Entry is Free of Charge
