

MJ Event Gear receive their new grandMA3 compact XT

Mike Jones and Theo Rood from MJ Event Gear.

Congratulations Mike Jones and Theo Rood from MJ Event Gear on your brand new grandMA3 compact XT! The team at DWR Distribution values your support over the years and we hope this desk will work super hard for you.

It was time for MJ to upgrade to a newer lighting console, and at the same time, meet the demands of customers who regularly requested this particular console.

The grandMA3 compact XT console is the larger of the two compact models by MA Lighting, offering the full system benefits of the grandMA3 system and housed in a compact and lightweight format. Easy to transport, the compact models are ideal for owner/operators and also the console of choice for tech-desk duties. The console features 2 huge multi-touch monitors, 5 dual encoders and a complete command area almost identical to the larger models. With 60 physical playbacks, 16 assignable x-keys and a dedicated master area the grandMA3 compact XT console provides plenty of playback options.
