

# Momentum Aardklop 2025

Posted on November 1, 2025

Momentum Aardklop Nasionale Kunstefees, held in Potchefstroom, has wrapped up another fantastic festival, and we're so glad it was a success.

A big thank you to Pieter-Jan Kapp PJK Project Management Pty Ltd, Technical Manager, for sharing these amazing photos of the crew in action. Kappie shared, "A wonderful and successful Momentum Aardklop 2025. Sincere thanks to DWR for the years of support — and to Jaques from DWR for always being there when needed."

Kappie has long relied on Blond Productions, the festival's trusted technical supplier, and over the years they've built an exceptional relationship. This year they incorporated many leading brands including L-Acoustics, DiGiCo, ROBE lighting, MA Lighting International, Sennheiser Microphones, Claypaky, Vari-Lite, Le Maitre Ltd, LSC Control Systems, Prolyte, and Longman Truss and Lighting

Jaques Pretorius from DWR Distribution was also on site, providing lighting console support. He shared, “With the grandMA3 out there, it’s really great to see that the MA2 is still going strong. It’s a great bunch of lighting guys that I’ve met and helped — Kappie has amazing techs who’ll back him all the way.”

Thank you to everyone behind the scenes for making this festival shine!
