

MoonLite, the 'Swiss army knife' of wireless DMX

Posted on April 1, 2019

Visit LumenRadio at Prolight + Sound as they showcase the new era of Wireless DMX. In hall 12.1, booth C58, you will be able to see our brand new MoonLite™ product, which is based on our new TiMoTwo™ technology.

MoonLite™ is a brand new patent-pending wireless lighting control product with LumenRadio's updated award winning ultra-reliable CRMX technology combined with Bluetooth connectivity and a built-in battery. By being a wireless DMX transmitter and receiver, MoonLite™ is truly the Swiss army knife of the wireless DMX world!

BUILT ON THE LATEST CRMX TECHNOLOGY

MoonLite™ is built on LumenRadio's patented reliable CRMX technology and boasts new features such as:

Bluetooth connectivity

Firmware updates over-the-air

MoonLite, the 'Swiss army knife' of wireless DMX

Smarter disturbance detection technology, allowing for even more stable connectivity

Significantly reduced RF footprint with dynamic transmissions

MoonLite™ has the same reliable functionalities as all LumenRadio's CRMX products, but is updated with even smarter disturbance detection technology, allowing for even more stable connectivity - and it comes in a much smaller package. With built-in support for Bluetooth connectivity, MoonLite™ enables tablet and phone based lighting control softwares to connect directly without the need for extra hardware. MoonLite™ is a state-of-the-art transceiver; thanks to its small size, built-in battery and dual XLR connectors it is ideal for use at clubs, small stage events, corporate events, in theaters and temporary events where wireless DMX connectivity is needed.

FEATURES

Built on the latest CRMX technology

DMX transceiver (TX and RX)

DC power

Bluetooth connectivity

Firmware updates available over Bluetooth, USB or XLR

Rechargeable battery included (10-12 hours in CRMX RX and 20 hours in Bluetooth mode)

Color coded pairing indication

Velcro fastening

MoonLite, the 'Swiss army knife' of wireless DMX

MoonLite™ can be used together with the newly developed CRMX Toolbox app. The CRMX Toolbox app is designed to make it easier to track and connect to your fixtures and devices. The key features of the app is the ability to conduct firmware updates of CRMX devices and enable configuration of CRMX products. More features will be released further on.
