

New Claypaky products at LDI 2018

Posted on October 17, 2018

Sharpy Plus

The Claypaky **Sharpy Plus** and the Claypaky **Axcor Spot 400** make their **international debut** at LDI 2018

SHARPY PLUS is the first true 100% HYBRID unit, able to be a perfect beam light and a perfect spotlight. It fits a totally new, top-ranking-performance Osram Sirius 330W X8 lamp and weighs only 21.6 kg (47.6 lb). All its functions are extremely quick. A Linear 3° to 36° (1:9) zoom covers the entire range linearly, both in SPOT mode and in BEAM mode. This feature makes the SHARPY PLUS unique on the market. In BEAM mode, it is capable of extraordinary power output (over 300,000 lux at 10m distance).

The **AXCOR SPOT 400** and **AXCOR PROFILE 400** provides the medium-power applications with compact, bright, LED moving spotlights, complete with every device you need for exceptional projected visual effects. There is nothing like them in their category for variety of effects and possible combinations.

The **AXCOR PROFILE 600** is the new benchmark on the medium-high market, standing out for its versatility, its high level performance and the superior quality of its light. The luminous efficiency is among the highest for this power category, and can be further increased by about 25% if necessary thanks to the exclusive "boost mode".

The **HEPIKOS** is an innovative Hybrid Wash/Beam light that combines low power consumption with color quality, without compromise, in its highly compact body.
