new Prolyft Aetos motors

Eventech, a Centurion based rental company have purchased twelve new Prolyft Aetos motors which will be used for their ground support, for flying PA, or which can be rented out.

"We chose Prolyft for various reasons," said Wynand Veldsman of the company. "Reliability, safety and it was time to upgrade our current motors. Prolyft is often specified, and when used

on events, the motors are quiet, aesthetically pleasing and look neat in a rig."

The motors were purchased from DWR Distribution. "We are pleased to see the growth of Eventech and all the exciting projects they have in the pipeline," said Robert Izzett from DWR. "When a good crew is complimented with good equipment, you can't go wrong."
