

# New training website for riggers

Posted on October 16, 2020

A4i.tv is a brand new website which provides tips and knowledge on rigging, trussing and staging.

Created by the manufacturers of Prolyte, Milos, Litec, Tomcat, JTE and EXE Technology, [www.a4i.tv](http://www.a4i.tv) offers a fantastic range educational videos available which includes rigging basics and product basics, to the sharing of useful tips and articles.

During a time when the live events industry is under semi-lockdown, this wonderful initiative hopes to educate and inspire. Best of all, you can access the content at your leisure.

Visit: [www.a4i.tv](http://www.a4i.tv)
