New V12 Waves Update

Posted on December 23, 2020

The team at Waves are pleased to introduce the new version (v12) of all Waves applications, with NEW highly requested features:

- eMotion LV1, SuperRack, SoundGrid Studio, and StudioRack are now V12

Copyright © DWR Distribution

- Support for V12 plugin resizing & preset browser
- StudioRack now features an internal sidechain option
- More new features & performance improvements

Users can update to Waves V 12 in three Simple Steps

STEP 1

Ensure that your system and DAW support Waves V12 plugins.

STEP 2

If your licenses are already covered by the Waves Update Plan, update them to V12 for free. If your licenses are not covered by the Waves Update Plan, renew your coverage first, then update.

STEP 3

Once your licenses are updated, install & activate your V12 plugin software.
