

Goodwin Gaidi,

Arthur Siko, Simon Ndlovu and Philemon Maepa Things are pumping in the DWR Distribution cable production line overseen by the remarkable Philemon Maepa. In the last ten months since his appointment, we have manufactured well over 25 000 metres of cable.

Knee deep in power, DMX, socapex and distribution cables and working alongside “Philie” are Simon Ndlovu, Arthur Siko and Goodwin Gaidi. They certainly make up the “A-Team”.

“We carry stock which makes it very convenient for our clients,” commented Robert Izzett from DWR. “Custom manufactured cables are also made. We only use the best cables, best connectors and there is good quality control.”

It's actually an incredible machine! This service has taken off, and to the fantastic team, an enormous **THANK YOU!**
